

TIPS & TRICKS

Cheat Codes

Before we move on to the good stuff, please read the following disclaimers:

1) We recommend that you play SimCity without cheats.

2) We don't guarantee the cheats will work for you, and we won't support problems with your game if you've used cheat codes.

That said ...

To use a cheat code, press the [Ctrl], [Shift], [Alt] and [C] keys at the same time (for Mac users the key combo is Apple+Option+Shift+C). This will bring up a cheat window for you to type a code:

Code:	Description
<i>call cousin Vinnie</i>	After typing this code, you will see a Local Fundraising Event appear in the Meet window. He'll offer you some cash, and if you accept the deal, he'll give you a large wad of cash. You can only use this code once.
<i>I am weak</i>	All buildings, zones, utilities, infrastructure, trees, and water are free.
<i>i love red tape</i>	City hall description becomes "Miles and Miles of Red Tape". Also sets the date to the year 1900.
<i>zyxwvu</i>	Type in this code after rejecting the Local Fundraising deal obtained by typing "call cousin Vinnie". You will be rewarded with the SimCity Castle, which will appear in the Rewards window.
<i>garbage in, garbage out</i>	All garbage buildings become available regardless of year.
<i>power to the masses</i>	All power plants become available regardless of year.
<i>water in the desert</i>	All water facilities become available regardless of year.
<i>pay tribute to your king</i>	All rewards and opportunities become available. However, the GigaMall and casino do not appear to be included.
<i>nerdz rool</i>	Causes clean, hi-tech industry to be built in your Industrial Zones.
<i>let's make a deal</i>	All of your petitioners to whom you have connections to starting making deals with you.
